ANNUAL MEETING
WATER DISTRICT 74-C
MARCH 2, 2020

Meeting called to order by Chair Boyd Stokes at 13:10

Attendees: Boyd Stokes, Chairman; Jerry Elzinga, Watermaster; Chris Kirby, Secretary/Treasurer; Betty Stokes

Minutes from the 2019 water meeting were read and approved as read.

Financials were read and approved.

Old Business

1. Chairman Stokes gave an update on his pivot project that is now complete and all rights are being diverted to POD's on the Lemhi River.
2. Chris Kirby gave an update on EVR, LLC's projects that are set to move forward that transfers the POD from LBC-4 to LBC-6. Construction is now set to begin in spring with implementation set to be operational in the spring of 2020 for the irrigation season.

5. Budget for 2019 was approved as presented by the Watermaster
 - a. Boyd Stokes Motioned
 - b. Chris Kirby Seconded
 - c. Vote was Unanimous
6. Discussion was had regarding the monitoring of LBC-3 flows for Boyd Stokes and Betty Stokes rights now transferred to L-8A. Both Jerry and Boyd have access to the telemetry unit at LBC-3 and monitor flows. Rick Sager, Watermaster District 74, is responsible for measuring flows on new system and is able to also monitor telemetry unit. A plan was made to adjust flows on the new L-8A pumping stations daily consistent with readings from the telemetry unit. This continues to be an ongoing monitoring situation.
7. Discussion was had regarding late season waste water off of EVR in the LBC-6 ditch. With current rights at LBC-4 adding the LBC-6 diversion, there will likely be times while the system is being "calibrated" that additional waste water may inadvertently traverse onto Stokes property. Although it is not foreseen as a grave concern, EVR wanted neighbors to be aware.
8. Chairman Stokes brought up the Lemhi County proposal to file for water rights throughout the County in order to fill water trucks for road construction/maintenance. Chairman Stokes thinks the district should come up with a formula where the County would compensate the users for loss of irrigation water. It was determined that even if this water was sufficiently measured, the probability of receiving compensation is

low. This is a practice they have been conducting for decades, and with or without a written right, is likely to continue to the public benefit. No vote was held on the matter.

9. The next meeting was set for March 2, 2021 at 2:00 PM at the same location.

Meeting Adjourned at 13:40
