Idaho State Dept. of Water Resources  
Northern Regional Division  
1910 Northwest Blvd  
Coeur d'Alene, Idaho 83814

Dear Sirs;

This letter is a request to activate the water master for the Twin Lakes drainage basin. As per my phone conversation of 5/30/95 with Al Beardsley regarding the closing dawn of the gates at the lake because of the dropping water level... I am anxious to activate Dan Park to begin regulating users.

I have some questions in regard to inflow measurements and just where they are taken. In specific the Zirkle/Prafke creek that has been tapped by a number of users Just where are the measurements taken...above or below the diversions? As you know that makes a difference for me.

Also, I'm not sure whether the ~~Departments~~ field rep. has come to inspect the well and holding pond for completion? Maybe the well, but if so I haven't heard.

Let's hope for a wet year.

Respectfully,

A handwritten signature in cursive script that reads "Linda Sytle".
