*Re: Goose Creek Water Rights*

Dear Ms. Kerby:

Recently you requested information for several water rights from Goose Creek. Enclosed are the printouts for those rights. The Goose Creek Watermaster delivers available water based on the *water right* records.

The Snake River Basin Adjudication (SRBA) records are also important to reflect splits or other ownership changes for the original water right records. The SRBA filings are useful to help the Watermaster understand the current ownership of the water rights.

In this case the SRBA records are somewhat confusing. Instead of sending you the confusing SRBA records, I summarized this information in the attached table.

I hope the enclosed material helps you. Please consult with the Watermaster if you have additional questions about delivery of Goose Creek water rights. The Watermaster is welcome to contact this office at her convenience if additional help is needed in delivery of Goose Creek water.

Sincerely,

Steve Lester  
Water Rights Supervisor
