Department of Water Resources
Eastern District Office

5 April 1994

To: Also Dept of Water Resources

Subject: Dispute over water measurement.

Re: Inasmuch as Mr. Les Harris, Eugene Minnig and Don Monroe do not agree with 1) the watermaster's estimates of their water use and 2) Mr. Harris and Mr. Minnig do not feel that the water should be measured, I am requesting that the FDR require them to install acceptable water measuring devices, preferably Cippolatti weirs for good accuracy, in the following locations: 1) Headwaters to the Munro/Simmons ditch, 2) Headwaters to the Laird/Munro ditch, 3) Headwaters to the Ellis ditch, 4) Headwaters to the Woodell-Foster Munro Ditch, 5) Headwaters to the Foster ditch, 6) Headwaters to the Woodell ditches, 7) near the Harris/Monroe

-2-

property line in the Simmons/Munro ditch,
8) near the Munro/Morroe property line where
the Munro/Simmons ditch crosses said line, 9)
near the Munro/Morroe property line where the
said Munro ditch crosses said line.

The above measuring devices are to be operational
for the 1995 water season or sooner. Numbers
8 and 9 to be installed and paid for by the
survivors of the Orrin Munro family. All other
(1-7) devices to be maintained by the owners.

Sincerely,

Ken Munro

Headwaters = Headwater

All ditches feed of Eightmile Creek, Dist. 11-A.
