Dayna & Skip,

Dayna, since we have the ability now to easily change the text on the water district notices I think it may help to re-word it to emphasize need to elect a new watermaster as you suggest. I'm not sure how to re-word it. Perhaps you can draft something and let me and/or Skip review first.

I'm not sure why the burden of running the meeting would fall on the son and daughter of the watermaster. I would think the meeting chairman from last year would do this or else someone from the advisory committee, assuming there is a committee. Skip - you and Paul would know more about how this district operates. Does the district need someone present from IDWR or can they go it alone?

Tim

WD 11-A water master passed away earlier this month. I spoke with his daughter-in-law today. Her and her husband don't know how to run the meeting and so are at a loss for what they should do to hold the meeting. I called today and reserved a room for them at the Caribou Co Courthouse for the same time as last year (1:00 pm) on 3/4, Mon. I told her I thought we could send a representative from the department to conduct the meeting or at least get it started. Since it's in Soda Springs, maybe Cindy Bird could go. Also, should I change the meeting announcement in anyway to reinforce the fact that they will have to elect a new watermaster this year?

Let me know as soon as you can so I can pass on the information.  
Dayna
