Skip -

Mark Harris, who is a water user in WD11A, Eight Mile & Bailey Creeks, was going to conduct the annual meeting as the previous watermaster passed away recently. He won't be able to now, but his father and brother, also water users within the district, will be conducting the meeting.

Mark requested that we fax copies of last year's minutes, water master report, and budget to him. (or at least the minutes so they know what was addressed last year)

Could you please check your WD file and fax these items to him at 547-0203.

I know I have his main phone number, but can't find it right now. If you need to call him back let me know and I'll see if I can locate it.

Thanks.  
Dayna
