I am writing concerning the
water right on Lee Creek for winter use.

Right 74-07274

As of May 9, 1998 the water had
not been put back into the creek.

This right according to IDWR records
is valid only from November 16th to March 14th

This diversion was still open on May 9, 98
and is affecting my irrigation rights.

Sincerely
Bever M. Cornell
