To Whom It May Concern:

Enclosed you will find the Water Master's report for Water District 11-E on Paris Creek. Also enclosed is the Official Water Master Book and disk with the Excel spreadsheet that includes the report. I have received this report from the water master and he has prepared the material and is also signing this document as being a true and accurate record.

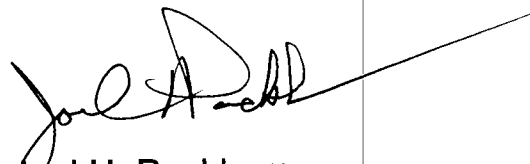

The water master was put on retainer for services the past two years, but was not called to regulate the creek due to the high water of the previous years.

The proposed budget for 2001 is \$900.00. The assessment for the \$900.00 is included for each water user on the report sheet. As secretary, I will make those assessments. If you have any questions regarding this report or the operations of the water district, please feel free to contact Mr. Packham or me.

Sincerely,

Richard J. Stocker  
District Secretary

Joel H. Packham  
Water Master
