Alan Purcell,

As you requested, here is the explanation on the Whittaker Ditch. We were mixed up on water right numbers and thought water in that ditch had been transferred. We found out it was not transferred. The ditch was turned on at high water by Whittaker, which is not uncommon with high water ditches and was on until July 1st. On the date you contacted us, we went up to shut it off, but Whittaker had already shut it off that day. On your question on the weir, we will not deliver water to that ditch without a proper measuring device. We are sending this to you and a copy to Tim Luke and Bob Foster of Water Resources.
