

Water District 11-F  
Watermaster Proposed Budget

Because of the very dry year 2001 users of water did not receive all the water they were entitled to. The budget was paid out of past assessments.

The year 2002 each user will be assessed \$2000 to make up the budget. The budget will be \$168000. The watermaster is paid \$150000 for the year.
