Re: WD problems

On 8-22-1994 I met with members of Cleveland Irrigation Camp on Cottonwood creek. Their specific problem was that they have seen that WR 13-00888 has been recorded in error. Testimony given + copy of 1929 WD meeting of Cleveland Irry. imply that a "Spring creek" trib to Bear River is the true source of this right.

I have encouraged Dr. Rasmussen, the current rt + land owner to file a transfer to correct this source problem. Also our coding effort has incorrectly identified this rt as stockwater rather than irrigation.

Alex Hudson @ 427-6214 will mail in a mailing list for the 1995 meeting with funds place.
