

LITTLE WEISER RIVER 67A

RECEIVED

FEB 11 1997

WATER RESOURCES
WESTERN REGION

February 9, 1997

STEVE LESTER 
WATERRIGHTS SUPERVISOR

Dear Steve,

Enclosed copies of files I have in my computer:

LWR BY PRIOR DATE_RIVER FLOW is an improved version of the one I gave you at our annual meeting. It is design to identify all deliverable water rights by their prior dates and the river flow needed to fill these rights.

MUIR V ALLISON DECREE_PRESENT OWNER_DITCH is designed to help identify the present owners of these original rights and the ditches these water rights are delivered to now.

BY DITCH_PRIOR DATE is designed to identify all deliverable water rights by ditch and their prior dates in that ditch.

BY NUMBER is designed to identify all deliverable water rights by their numerical order

BY ALPHABETICAL_PRIOR DATE is designed to identify all deliverable water rights owned by an individual and their prior dates.

The names used to identify these water rights were taken from county tax records (which is the way we bill these water rights). There are many different names being used on these water rights which do not agree with the tax records. As an example: McKee M. water rights carry the name McKee Bros Inc, but are not identified by the county tax records that way. M. McKee is their father. I would appreciate your feelings on this issue.

Also enclosed is the signed and notarized oath form.

Sincerly,

Richard Kretten
Watermaster 67A
