ATTN: Dave Tuthill

Dear Mr. Tuthill,

Due to the continuing problems with the irrigation from Eaton Lateral, located in Weiser, we request the Department of Water Resources intervene and provide a ditch tender.

The only way this problem will be resolved is with an objective, uninvolved person making the decision as to allotment for the various parcels of ground using Eaton Lateral for irrigation.

We would like to see this problem resolved, but the current system only seemed to escalate the problem. The only solution seems to be with the help of the Department of Water Resources.

Respectfully Submitted,

Delaine H. Dwinger *Maxine Dwinger*

Mr. & Mrs. Delaine Dwinger
