FILE East Fork Ditch Co.

NAME OF PARTY JOHN CAMP 253-6008

EMPLOYEE STEVE LESTER

RE: DELIVERY PROBLEMS

J.C. called today to discuss delivery problems along this ditch as previously noted in I.D. files. Told him I would check into & call back. Discussed ongoing I.D. - ditch co. efforts to resolve etc.

Told me that his attorney is Gary Neal, Churchill Law Office, Boise 343-5931.

6/20/95 Discussed per call with DIT: ongoing efforts to form lateral assoc. or variation of same to improve delivery on this ditch. Advised me that dept. needs letter from J.C. on this, not just phone call.

6/21/95 telcon with Atty. Gary Neal -

discussed above topics at length; he will advise J.C. re letter to dept.; asked me for copies of by-laws etc. re lat. users assoc.

Mailed 2 sample copies of by-laws from our file to atty.

No further response to J.C. needed since his atty will handle.

RE: East Fork Ditch Co - Weiser River

Mr. Camp stopped to inform the Dept, he has retained an
attorney to begin legal action against the Board. He indicated, the
Company has let their company filing with the Sec of State expire in
1987. A meeting has been scheduled for May 21st.

FILE WD #67
Weiser River

NAME OF PARTY Joe Jordan - Fruitvale

EMPLOYEE JFW

RE: Robinson - Sevy Ditch - Weiser River

Users on the lower end of the ditch are not getting their share of
water in the past. The Ditch Company Board would like the Department's
assistance in making field measurements to calculate ditch losses
and diversions. Joe estimated, it may take 2 days. They plan to
close all diversions, fill ditch, and check flows at 5 locations.

Normal flow - 400 inches.

Ditch length - 3 miles

- Would like to make measurements in Mid-May, will contact the
Department one week in advance to make final arrangements

- Would need - flow meter
Weirs etc
