DEPARTMENT OF RECLAMATION

BOISE, IDAHO

REPORT OF ENGINEER

Permit No. 21065

This proof is for Beneficial use In Water District No.

1. Name of applicant P. A. Leger, Cambridge, Idaho

2. Source of water supply: Jensen Spring Creek and tributaries

3. Location of point of diversion: Is in the NE 1/4 SE 1/4, NW 1/4 SE 1/4, SE 1/4 SE 1/4 of Section 35

T. 15 N. R. 3 W. County of Washington

4. Describe works as they exist, giving dimensions and capacities of same:

5. Water is used for: Irrigation and domestic purposes

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SW 1/4 NE 1/4, N 1/2 SE 1/4, SE 1/4 SE 1/4 Section 35, Twp. 15 N., Range 3 W., E. 4.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks:

Measured over a distance of 1/2 mile

This examination was made on the

13 day of April 1934 (Signed) G. H. Humphrey

EXAMINER

21065

Point of diversion #1. Source of water is a spring as indicated on map and is diverted from its natural channel by a small ditch and dam the original channel has been ~~blocked~~ in. Amount of water from this diversion was measured over a V-notched weir at 5 inches.

Point of diversion #2. There is a short deep ditch that connects <sup>44130</sup> this spring and ~~and~~ this water is diverted by a small dirt dam with a wooden head-gate. Water from this diversion was measured over a V-notched weir at 15 inches. Water is distributed by gravity through ditch. Direction of flow is to the South.

There is a creek between the two springs that flows during high water but according to Mr. Legg, goes dry very early. The creek is a short stream and apparently has no name *or is Jensen Spring Creek.*

5. Water is used for: Irrigation and domestic purposes

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SE $\frac{1}{2}$  NE $\frac{1}{4}$ , E $\frac{1}{2}$  SE $\frac{1}{4}$ , SE $\frac{1}{2}$  SE $\frac{1}{4}$  Section 35, Twp. 15 N., Range 3 W., R. 4.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks:

*Measured over a V-notch weir*

This examination was made on the

15 day of April

19 54

(Signed) B. H. Humphrey

Proof of Completion of Works

AFFIDAVIT OF HOLDER

STATE OF IDAHO

County of Washington } ss.

P. A. Legg, being first duly sworn, upon his oath deposes and says:  
First: That he is the holder and owner of Permit to Appropriate the Public Waters of the State of Idaho, No. 20165, and that his postoffice address is Cambridge  
State of Idaho

Second: That the name of the stream which said water is to be directed is Jensen Spring Creek, and East and West forks Jensen Spring Creek

Third: That the point of diversion of said water is in three places, the nw 1/4, the nw 1/4, and the se 1/4, Sec. 35, Twp. 15 N., R. 3 W., E. 1 V.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by May 27, 1950, 19.....

Fifth: That the use for which said water is intended is agriculture

Sixth: That on the date above mentioned, the works constructed under said permit were (or were not) fully completed and consisted of the following:

I. Kind of works: dirt diversion dams, and ditches.

(Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work: small dams, varying from two to five ft high.

(a) Height of dam.....feet, length of dam at top.....feet, length of dam at bottom.....feet. Material used in construction dirt.

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir.....acre feet.

(c) Size of headgate: Width.....feet, height.....feet.

(d) Conduit.....width at bottom.....feet, width at water line.....feet, depth of water.....feet; diameter of pipe.....inches, average grade

per mile is.....feet. Length of conduit is.....miles.

Seventh: That said works are capable of conducting to the place of intended use.....80 second feet of water.

Eighth: That water appropriated under said permit is available for 80 acres of land described as follows: N 1/4 SE 1/4, SE 1/4 SE 1/4, Sec. 35, Twp. 15 N., R. 3 W., E. 1 V.

Ninth: Remarks: That

P. A. Legg  
(Sign here)

Subscribed and sworn to before me this 11th day of Sept., 1951.

My commission expires Nov 17, 1953

Arthur Wilson  
Notary Public.

*W. A. Tapp*

Kind: That water appropriated under said permit is available for  
20 acres in wet soil  
20 " " wet soil  
20 " " wet soil  
20 " " wet soil  
20 " " wet soil

Depth: That water appropriated under said permit is available for  
60 feet of water.  
Material: That said works are capable of conducting to the place of intended use  
per mile in feet. Length of conduit in miles.  
Flow, depth of water: feet; diameter of pipe: inches, average grade  
feet, under date, time or year  
(d) Conduit with at least feet, with at water line  
(e) Size of vent pipe: width 1/2 feet, height 2 feet  
(f) Capacity of reservoir: acre feet

11. Dimensions of work:  
(a) Height of dam: 3 feet, height of dam at top 30 feet, length of dam at  
bottom 10 feet. Material used in construction earth & rock

1. Kind of work: earthen and rock dam, ditch  
were (or were not) fully completed and consisted of the following:

Kind: That on the date above mentioned, the work mentioned under said permit  
was required to be completed by May 27, 1950

Fourth: That under the terms and conditions of said permit, construction thereunder  
was completed by May 27, 1950

Third: That the point of diversion of said water is direct from spring  
from Spring Creek, known as Jensen Spring Creek,  
State of Idaho

Second: That the name of the stream which said water is to be diverted is  
State of Idaho

First: That he is the holder and owner of Permit to appropriate the said waters  
of the State of Idaho, No. 21065, and that his present address is
