

John - I spoke
with Alan Reason
- he's below Carey on
Cold Creek. He is
complaining he's not
getting his water & he does
have 1st its. I called Joann
Phelps (nice man) & he had
looked at the situation
& feels it's due to changes
in irrig. practices up there.
He will talk w/ Carey &
Reason. Just thought I'd
let you know since they
asked for you & it sounds
like you've dealt with this
before? Jan

7/1 Called Ivan Phelps

Discussed above, Ivan feels there just is less water in the creek due to changes to sprinkler irrigation, and development of ranchettes - less waste water from other sources -

Discussed we could meet with Mr. Pearson in Aug. when I come to inspect the dams.
