RE: APPLICATION NO. 65-13742, PHYD HUFFMAN

Dear Mr. Phelps:

Enclosed is a copy of Phyd Huffman's water right application to build a small pond related to water tributary to Boulder Creek. For several years this office usually has not been sending watermaster comment letters to most water districts for small projects that divert from tributary water (typically springs or runoff, also called unnamed streams).

However, recent history in your district suggests a heightened concern about small ponds and other non-irrigation development. Please let me know what you think about this application by completing and returning the watermaster comment form at your earliest convenience.

Also, do you want to be notified of any surface water applications in your district that involve sources other than Boulder Creek but considered tributary to the creek? We want to avoid sending you unnecessary mailings if you do not have a concern about such applications.

Thank you for your help in this matter.

Sincerely,

Steve Lester
Water Rights Supervisor
