Re: 2002 Budget for Porter Creek Water District No. 65B

Dear Ms. Hernandez:

Enclosed is a copy of the 2002 budget for your records. The budget was adopted by the above referenced water district at the recent meeting. The budget defines assessments owed by the district members.

The adopted budget was prepared by me based on data provided by the watermaster and by information from the 2002 district meeting. Normally, a watermaster submits a proposed budget at the annual meeting. If the members endorse the proposed budget, the district secretary prepares an adopted budget and mails it to the County and to the Idaho Department of Water Resources. The County then bills the members.

Porter Creek district has not had much formal paperwork in recent years. Because of the lack of documentation, I prepared and mailed the budget on your behalf. This has been an accepted practice in similar situations over the years.

My hope is that the district will get back on track with regular watermaster reports and budget matters. If all goes well, we will have adequate documentation by next year's meeting to allow you to complete the adopted budget form and send it to the County.

Meanwhile, the above described steps should take care of 2002. Thank you for your efforts in making the district work more smoothly. Please call me at 334-2190 if you need more information.

Sincerely,

Steve Lester
Water Rights Supervisor
