RE: Status of District

NO calls for water yet.

Checked #6/7 pld per my recent letter,
adjustable/lockable control now in place & ok.

#1 getting c 700 gpm.

All other off - very little water, so only partly
filling #1.

NO flow in creek at bridge @ Douv's house.

" " " " " Hwy 55 near mouth of creek.

He should receive \$/115 check ⁵⁰⁰⁰ ~~500~~ (for 2001 work)
from county - call me if does not receive this.

Probably won't get any calls for water given
low supply.
