Re: Lockable and Controllable Diversion on Porter Creek

Dear Mr. Dovel:

I received your fax letter dated July 15, 2002, regarding the reconfigured diversion on Porter Creek. The Watermaster inspected the work you did and reported it to be very satisfactory. The diversion meets the water district requirements for eligibility to call for water delivery if the supply of water is sufficient to honor a priority-based request.

Additionally, the work you did protects the integrity of two recent permit approvals (Heffner) listing this site as a diversion point.

Thank you for your diligence in restoring the diversion to one fully suited to Watermaster control should the need arise for such control. Your efforts resulted in a significant contribution to the operations of the water district.

Please let me know if you need further information in this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'Steve Lester', written in a cursive style.

Steve Lester
Water Rights Supervisor

CC: Randy Heffner
Hank Berntsen, Watermaster
