WATER RESOURCES  
WESTERN REGION

67-H District Water Meeting

The meeting was called to order by Dawson Howland. He called for nominations for chairman. None were made so Dawson chaired the meeting but said he would not be here next year.

Whitney Voermans was retained as Sec. - Treas for the year 2000. She was not present so Bob Voermans filled in. The minutes were read and approved.

The creditals committee was appointed. Elsie Ward, Royce Swenfelder, and Jerry Jaeger.

The advisory committee members were reelected for 2000. Royce Swenfelder, Larry Anderson and Wayne Burkhardt.

Bill Horn reported that it was a good water year. The only problem he had was people putting dams in river and not letting him know. If he could be notified a couple of days in advance it would be much appreciated.

Nominations for Water Master were opened and Bill Horn being the only nominee was reelected for the 2000 irrigation season.

Watermaster training will be given this spring. Members voted to pay gas and motel expenses for the watermaster to attend.

Steve Lester introduced Laurie Caraves as she will be taking over Steve's position next year. Steve also gave an update on the adjudication process.

After the financial report it was decided to leave the assessment at 26¢. This year will be the first year to see what the reduction from 27¢ to 26¢ will do. Steve Lester mentioned that some of the junior water rights might be reduced so there may be less money coming in because of those reductions.

All business finished the meeting was adjourned at 2:30 PM by Chairman Dawson Howland.

Update  
western  
file

Officers, Wm - Same

Next year Chairman stepping down so will  
elect new " (Wilkinson?).

Bob V. acted as S/T for Whitney at mtg. -  
ok ✓

Assessment same. - might vary next yr. when  
jr. permits licensed

Q - what is difference between permits cts  
& recommended cts for licensing?

Send reply to Whitney with cc to Wm

Lower ditches - problems, not got H<sub>2</sub>O several  
days 1999 despite good supply. Problem is  
users divert w/o telling Wm so causes  
disruption.

-continued

Isaac W. for Inv Dist. (Reservoir) spill Res. board will send letters to shareholders ... tell them before divert from River so he can make adjustments. ... see if that helps.

NOTE: If does not help, discuss at 2001 meeting:

///  
=  
=  
=  
=

Several yrs. ago they voted to make an appt. year around, not just irrev. season. River under our control all yr. ... could adopt resolution at mtg. that no diversions on rt river unless notify us at least — days in advance.

Penalty to not comply: Diversion can be shut off as unauthorized use.

Possible 2001 mtg. items

Budget . e \$8700 ± available ~~once~~ once all assessments collected

RECALL that 2 counties involved so takes longer to complete assess/payment (Wash. + Adams for plus).

Follow up by IOWR

① Send Ann Report & Ann Proposed Budget to Whitney (forgot to give to her & mtg.)

② \$100 "dishonesty bond" - Ann said Ann has to cover Treas, not Ann.

But I.C. covers Ann and Treas. already so tell Whitney that \$100 bond

→ N/A.

Confirmation w/ JFW first

③ abandoned USGS gage station -

CAN install meas. device in river somehow so can meas. at lower flows?

NO \$ USGS abandoning \$1600 hrs, flooding. My guess - NO, won't work for river section.

probably best to make series of meas. w/ Twitter when low flow to build better resting table ... do EACH summer? local. info/specs w/ W. Dist. Section.

long term - discussed w/ JFW. work on cost share abandoned gages ?

(4) Wm asked if 1996 priority lists of weirs etc needs updated (reports I prepared for previous Wm) ... will check & let him know.

(5) Cont. of Appt. etc. - should include reminder to be sure to attend Wm training in Spring 2000 - very important!

★ (7) CFS permit vs. rec'd lic. to Treasurer

add'l thought - probably not worth pursuing install weirs/meters on all pld's.

Use gage station for now to document suitable CFS. Tools are available to physically control it for 120 years:

lockable headgate at all river ditches, way to measure/estimate natural flow upstream station.

(6) Tell Wm - letter to CC to Chairman: 5/11 - must measure river this year when safe to do after snow on Reservoir. Suggest at least measure & document every 2 weeks until end Sept.

18/2/00 "67A mtg." called by Res. Board + Wm

JFW + 82 attended Xm Iowa.

- 1) 1979 order e. hdqtr + meas. devis.
- 2) Res. Board held meeting of shareholders & discussed need to control/meas. shares into ditches.
- 3) Res. Bd. will send letter to shareholders e need to install paper controls in order to keep getting Reservoir shares delivered.
- 4) This will also serve needs of 67A + Wm.
- 5) What to do if people don't comply?
  - 1) 67A pass resolution to require paper controls.
  - 2) Wm to ask IWRB to ~~Enforce~~ Enforce 1979 order for ones not complying.

Discuss of Gary ... if ok approach, suggest to Wm for 2001 mtg.

6) Wm needs help e how calculate Q to d-tress for AE of storage delivered. JFW will help w that

Short term 7) Tech help & maybe \$ available through NRCs.

Long term 8) 67A slow in dist. (Reservoir) could ask IWRB for grant \$ to improve operations.

9) How to enforce CIA things? not hands on action but refer to IDWR for help.

10) Wm should attend training when offered by IDWR

Should we require this as condition of appt. certificate we issue?

✓ 12) ISAAC Ward needs info & letter to change from #14 dthl to #13 dthl (see 1995 inventory list).

↪ Sent him info on 10/4/00

DEPARTMENT OF WATER RESOURCES

Western Region, 2735 Airport Way, Boise, Idaho 83705-5082 - (208) 334-2190

FAX (208) 334-2348

CC of notes sent to ISARC WARD & transfer

10/3/00

DIRK KEMPTHORNE GOVERNOR

KARL J. DREHER DIRECTOR

ISARC:

Changing div. point to another ditch -

Records aren't clear & which rights use ditch labeled as #14 Woods/Moray on inventory list. For your natural flow rights, I found 67-00472 + 67-00481 as reflected in Adjud. claims A67-00472 + A67-00481. THESE list other ditches so RATHER confusing.

All rights using #14 ditch: can file 1 transfer to include all rights changing div. point to another ditch. Transfer fee based on total cfs being changed. Don't need to include reservoir water in transfer since just detail & which ditch shares are delivered to.  
that

Suggest for Transfer Application:

- ① i.e. all water rights using #14 ditch.
- ② Ask IDWR for printouts of current water right plus adjudication records.
- ③ Multiple owners can file as joint applicants on 1 form since rights will be diverted together through common ditch.
- ④ May need consultant to help file application if gets complex. Consultant list included. IDWR staff have been directed not to fill out these forms in order to concentrate on backlog of work already have.

-Continued
