RE:

Billing - 1996 Assessments (?) from County

Both parties called this a.m. to state have received bills due from county for 65-B assessments. Both believe are already current with payments per 1995 billings (and no new assessments were adopted for 1996 per annual w.d. meeting).

It appears that something is not quite right unless these new bills are actually outstanding balances not paid in 1995.

Arlie - got \$60 bill but paid \$60 in 1995 (\$50 for #5, \$10 for #9?)

Steve - got \$600 bill

Told them we would ✓ with county & get a letter out to district members soonest.
