July 6, 1995

Mr. Bob Henggeler
Payette River Water Users Association
102 N. Main
Payette, Ida. 83661

Dear Bob:

On Wednesday, July 19, 1995, a meeting of the Water District No. 65 Advisory Committee will be held at the Payette office. The purpose of this meeting is to discuss the new flood control curves for Cascade and Deadwood Reservoirs with Jerry Gregg of the Bureau of Reclamation. It has been suggested that the board of directors of the Payette River Water Users Association be in attendance at this meeting in order to facilitate our discussion and raise issues pertaining to these proposed curves. A consensus may then be reached as to the adoption of new flood control procedures on our reservoirs at that time.

Please invite your board to attend this meeting. If you have questions or scheduling problems, please let me know.

Sincerely,

Mark Limbaugh, Watermaster
