1. Except for Minidoka and Lucky Peak, all contracts are spaceholder (share of reservoir capacity) repayment contracts. Minidoka storage is included in the original Minidoka Project and addressed in conventional repayment contracts. Lucky Peak contracts are spaceholder water service contracts which are up for renewal in 2005 - 2008.
2. Above the spillway and not storable.
3. Dead storage is a natural lake the volume of which has not been determined.
4. Tentatively identified for mitigation of Safety-of-Dams repairs to Deer Flat Dam.
5. Reserved for power head.
6. Includes 250,000 acre-feet for minimum pool and 19,900 acre-feet designated for reservoir evaporation accounting.
7. Reserved for sediment control and needed for use with 250,000 acre-feet minimum pool to maintain water quality and endangered bald eagles.
8. Includes 49,900 acre-feet for minimum pool and 30,000 acre-feet reserved for Deadwood River streamflow maintenance.
9. Nominal amount.
10. Reserved for sediment control.
11. Corps of Engineers facility with irrigation water marketed by the Bureau of Reclamation.
12. Boise River streamflow maintenance of which 50,000 acre-feet is reserved for the Idaho Department of Fish and Game.
13. Corps of Engineers dead pool for reservoir fishing.
14. Reserved for sediment control.
15. Provides head for north side and south side Minidoka canals and Minidoka Power Plant.
16. Includes 18,980 acre-feet of Palisades space and 80,500 acre-feet of Ririe space designated in the Congressionally approved Shoshone-Bannock Indian water rights settlement for assignment to non-Indian water rights holders. Contract negotiations are pending.
17. Reserved for power head.
18. Exclusive flood control.
19. Reserved for sediment control.
20. Provides head for irrigation outlet.
21. Reserved for sediment control.
22. Warm Springs Dam and Reservoir were originally constructed by Warm Springs Irrigation District. Reclamation purchased one-half of the reservoir storage rights for project needs.
