Subj: Horseshoe Bend Hydro

Steve:

Mark Limbaugh called me on Friday and indicated that a meeting had been arranged for this Thursday regarding Horseshoe Bend Hydropower and their diversion of water to ponds. Could you please tell me where that meeting will be held and what time? Also, Mark indicated that the hydropower plant does have a water right to divert to these wetlands but indicated the right was under another name. Do you know what name that is so I can look at the right? Thanks. I plan on coming to the meeting if I don't have a conflict.
