Bancroft, Idaho 83217

Bancroft Lund Water District meeting;

Chairman Bart Christensen, called the meeting to order at 11:00 am.

Present, were Dale Wistisen Sec/Treas, Kim Welch, Ben Lloyd, K.C.

Jorgensen.

Water master report was given and the district finances were discussed,

expenses were as follows;

Water master fees.....	647.40
Workman comp. Insurance.....	297.00
Federal withholding.....	28.76
Money left in bank.....	148.89

In order to operate for another year an assessment must be collected from the district members; motion by Kim Welch, to assess \$0.25/acre, 2nd and passed. A new tape will need to be purchased by the district to replace the one broken in the summer of 2007. Other expenses include, Sec. \$500, insurance \$300, water measure fees @\$700.00.

Dale will send out assessments along with a water district report.

Meeting adjourned at 11.20 am.

Dale R Wistisen Sec/Treasure.

Dec. 13, 2007

Dear water users,

I started measuring wells in the Bancroft-Lund water district on May 19th. This was an average starting date in terms of start -up in years past. The spring was cool and wet until about the middle of June. Then it seemed as if someone hit a switch, and it became hot and dry with very little precipitation until late September.

I measured the same ten wells as last year; however, in early August my steel tape got caught in Don Rigby's well. We tried to get it loose, but were forced to leave it. I finally got the tape back in late November after moisture and gases corroded the metal at the 14'8" level allowing the tape to break. I didn't get a new tape until October that I used to finish up the measurements.

The only problem this year was the use of the Everitt Smith well by Jorgensen Farms. This well was supposed to be decommissioned in exchange for transferring the water rights to the "Y" in 2003. Jorgensen Farms were issued a notice of violation in late summer of 2007. However, at the writing of this report the well is still operational.

In conclusion, it appears that we continue to scrape by, but unless we have a good moisture year the water situation for 2008 does not look all that optimistic. At this early stage it's hard to tell, but one thing is certain. Well levels are down, and we'll need at least an average winter to recharge the aquifer.

I took my last measurement on November 30, 2007. Below is a list of my expenses while monitoring the Bancroft-Lund water district during 2007.

Travel (4 wheeler and pick up) 542.8 miles @ .50/mi. = \$271.40
Labor 32 hrs. @ \$11.75 = \$ 376.00
\$647.40
~~- 2876~~

Yours for moisture,

Craig Shuler

January 15, 2007
Bancroft Lund water District 13 T
Annual Meeting
Bancroft Lions Den, Bancroft Idaho

The meeting was called to order by Chairman Christensen at 12:10 p.m.

Minutes of the 2006 meeting were read and approved.

The water master report was read to those in attendance: [attached copy].
The financial report was reviewed and accepted; moved by Kim Welch.

Action I: moved by Terry Rindlisbaker that the District operate as it has the past year, Craig Shuler has agreed to continue to measure the wells and Dale Wistisen has accepted to continue as District Sec Treas., passed.

The Secretary felt that it was not necessary to assess for monies for one more year at which time the district will need additional money to continue.

Roger Warner of the Idaho Water Resource requested that we pick a day other than a date recognized by the state as a holiday.

Present; Bart Christensen, Terry Rindlisbaker, Blair Rindlisbaker, Kim Welch, Brodie Welch, Chad Neibaur.

District expenses 2006;

Money on Hand at start of year; Jan. 01 2006.....	3947.79
Internal Revenue Service [withholding].....	67.32
Craig Shuler [wages, expense 2005].....	671.06
Dale Wistisen [services 2005].....	500.00
Dale Wistisen [supplies].....	15.00
State Insurance Fund [workers comp.].....	300.00
Ending bank balance Dec. 31 2006.....	2394.41

Outstanding 2007 expenses of water district,

Craig Shuler [wages, expenses 2006].....	677.62
Dale Wistisen [services 2006].....	500.00
State Insurance Fund [workers comp.].....	300.00

Submitted January 15, 2007 Dale Wistisen Sec Treas.

December 28, 2006

Dear water users,

The water year for 2006 continued to improve. The 2005 – 2006 was more traditional for the area, and resulted with good snow pack in the mountains. This coupled with a later spring similar to 2005 helped water users in the Bancroft – Lund water district.

This was the first year since 1999 that the beginning measurement on the control well located on the Holsten property was below 70 feet. Also the final reading in November was .95 feet better than 1999. It appears the aquifer is recharging with the heavy winter of 2006, and the delayed pumping thanks to the late springs of 2005 and 2006.

I continued to measure the same nine wells I measured in 2005. Water levels were noticeably better, and this resulted in few complaints from users. At the writing of this report it appears the area has adequate moisture; but the lack of snow pack in the mountains due to the mild winter could negate the progress of the last two years.

I took my last measurement on November 3, 2006. Below is a list of my expenses while monitoring the Bancroft – Lund water district during 2006.

Travel (4-wheeler and pick-up) 597.2 miles @ .45 mi = \$268.74

Labor 38 ½ hours @ \$11.50 = \$442.75

Total = \$711.49

- 33.87

Total 677.62

Sincerely,

Craig Shuler
