Director

Stanley Hill

Mr. Hill:

Last season we discussed the continued use of a drought well on your property evidenced by temporary permit #27-7559.

As you may recall, that permit and well was only good for the 1992 irrigation season. I also advised you that the drought emergency declaration of 2001 did not include drought wells in your area.

At this point I am advising you that unless the Director indicates differently at some point in the future, that temp permit #27-7559 and the associated well in the SWSE Sec 7 T 3S R 35E should not be used.

Any continued use could result in civil penalties. If you have any questions call me at this office.

Sincerely,

A handwritten signature in black ink that reads "H. W. Jones".
