Motion made by Thayne Thompson

Seconded by Byron Allen - - - -Passed unanimously by all present at Annual Water Meeting  
held March 6, 1995 at the Community Building in Lava Hot  
Springs, Idaho, that the following resolution be sent to  
all parties.

WHEREAS: The Commercial Energy Management Hydro located at the East end of Lava Hot Springs,  
Idaho has continued to cause problems with delivering of irrigation water to  
Portneuf River Water-Users. This problem is caused by normal river flow being  
backed up as gates are raised and lowered, causing the River flow to be impeded.

Also the water is causing damage to roadbeds on the Old Highway #30.

At this Annual Meeting of the Portneuf River Dist. #29 we the Portneuf River  
Water-Users hereby petition the Idaho Department of Water Resources to help  
solve this serious problem, as soon as possible, preferably before this  
irrigation season.

Also that only the natural or increased river flow, from the reservoir storage,  
be allowed to flow unimpeded through the Hydro Gates during irrigation season.
