Date: 1/5/98

Employee Initials: JFW

File #: Sinker Water District #57D

Name of Party: _____

1:45
PM

Jay Hulet - called to say the Waterdistrict meeting is the same day as the sugar growers meeting. It may be considered that the date be changed. There are several users that are family members.

1:50
PM

Paul Nettleton - Discussed Jay's previous call. Paul indicated, the day be left, as John Edwards is flying from out of state, and had already made reservations. Also the meeting has traditionally been the 2nd Monday in January; people had already placed the date on their schedules.

2:10
PM

Jay Hulet -
Told Jay the discussion with Paul Nettleton. Felt best to leave date as stated. Suggested that they divide up for representation at both meetings. (sugar growers + Water district) Jay stated he would abide by the decision.

RE: _____

3:40 pm - spoke with Mary.

Jay submitted petition for review.

OK to deliver while remaining paperwork is being processed.

She will make site visit, deliveries, & let users know that creek now under WM control.

This should resolve the dispute & delivery for now.

WM said ^{does} did not need Tom to be present at this time - she knows the situation well enough to handle it.

RE:

A.m. - Jay Hulst called - said he was unable to make deliveries yesterday since P.N. has control bar. Asked for help to get him delivery.

P.m. - I discussed with him. She told me that Hulst & Nettleton each say other has the bar. She was unable to make delivery w/ tools she had so nothing done.

Said Hulst told her he has wrench that will work.

OK to use that to make adjustments. Also him to tell both parties that control bar should be returned by tomorrow A.m. - if not, we will take add'l steps.

Discussed w/ Reg. Mgr. - one option is to have him use collector district funds to pay for new control to be built & installed immediately. Benefit to water users (Hulst & Nettleton) = basis to ration the costs for such work. Luck should be installed with this job.

We called from S.O. where he's in 2 meetings. Asked if I could call Wm & have her delay his requested delivery until tomorrow. He can have his employee meet Wm & install replacement control wheel (the one both he & Nottleton say that the other person removed). Then Wm can put her back on it.

I called & left this msg. for Wm. Also referred her to Reg. Mng. Next Mon-Wed if NEEDS assistance. I'll be available again on 9/11.

Called re problem re Labor Day weekend, still happening: said Paul Nettleton (Joyce Livestock) removed ledge control for Hulet Res. outlet is taking more than allowable flow from creek. (called it "Reservoir Transit to creek", persistent problem especially re holiday weekends.)

Called him several times plus late night re 7pm visited her home but no response received. Needs help to get his water.

CJH

not in office today, back tomorrow. Lett email msg. for her to call me.

Shel

Shel called 344-6690 - Jay H. is his client. Said Nettleton should not take more flow than inflow to res. as limited by WR's. Said now outflow > inflow is Nettleton diverting re a 4 sq/day being drained from Hulet Res. Was going to call Director but as long as Regional office handling, he wait.

I'll contact him for prompt response. Shel will let Jay know.
