

Idaho Department of Water Resources

WATER DISTRICT NARRATIVE SHEET

Updated: March 4, 2003

Date of meeting: March 4, 2003 at 2PM

Location: Elmer Irelands in Prairie, Idaho

Phone: 868-3224

**Attended by: Elmer Ireland, Barbara Ireland & Luther Cook.
& Ron Howerton, Senior Water Right Agent, Western Region**

Water District: 63-B Smith Creek Officers:

YEAR	CHAIRMAN	SECRETARY	WATER MASTER
2000	Elmer Ireland	Barbara Ireland	Randy Davison
2001	Elmer Ireland	Barbara Ireland	Randy Davison
2002	Elmer Ireland	Barbara Ireland	Randy Davison
2003	Elmer Ireland	Sandy Davison	Randy Davison

NARRATIVE: The same officers were elected again with exception that Barbara Ireland would like to step down and give the Secretary responsibilities to Sandy Davison, Randy's wife. Neither Randy nor Sandy was at the meeting to accept the change. It was assumed to be ok, as shown in above table.

OLD BUSINESS: Luther Cook repaired many leaks of the Trinity Canal, by using a dozer from the Davison's.

UPDATE: The water master was not called out last year, thus money is still in the account for the 2003 season. The group still has not opted to purchase workman's comp.

NEW BUSINESS: Elected officers. Talked about cleaning upper end of Trinity Canal. Luther would ask to borrow dozer again from the Davison's.

INACTIVE DISTRICT? Perhaps this district could be classified as inactive. Recommend to be reviewed for any future meetings.
