RE: Tour of Sinker Creek diversions

On Friday, March 20th I toured Sinker Creek with Cindy Hodges (IOWE) and Nick Ihli, the newly elected Sinker Creek water master. We started at the bottom of the drainage and worked our way up to Mr. Huber's dam. We visited many but not all of the diversions and visited the area where Sinker Creek enters the Huber dam.

I indicated to Mr. Ihli that I would be glad to accompany him on his rounds on April 1 or thereafter (whenever he first went out this irrigation season).
