RE: WORKMANS COMPENSATION INSURANCE

Dear Mr. Nettleton,

I spoke with John Westra and Tim Luke upon my return to the office from the Water District 57D annual meeting. They informed me that the Idaho Department of Water Resources (IDWR) does not require that a water district acquire workers compensation insurance, but they do warn that Idaho Industrial Commission may enforce the requirement and they recommend that district protects itself from possible future litigation. However, if this insurance is not purchased, it could put all of the members of the district in jeopardy if an accident does happen. They also stated that the district is not required to purchase the Idaho State Insurance Fund insurance and that you could attain insurance from another provider.

Enclosed you will find a booklet detailing the workman compensation insurance offered by the Idaho State Insurance Fund. It should give you enough information to compare this insurance to other insurance providers.

If you do decide to purchase worker compensation insurance you should contact our office to show the updated budget. If you have any questions or concerns please contact me at the above address and I will do my best to help you.

Respectfully,

A handwritten signature in cursive script that reads "Daniel A. Nelson". The signature is written in black ink and is positioned above the typed name and title.

Daniel A. Nelson
Sr. Water Right Agent
