Subject: Arlin Olson

Skip has requested that I email you to let you know that Mr. Arlin Olson, long term Watermaster for Water District 29, recently passed away. He has been ill for quite some time. Those of us who have taken his phone calls and have worked with him will miss hearing from him. Skip will let us know if the Water District will have the current Deputy Watermaster serve the district or if there will be someone else. He understands this is currently under discussion. Thanks and I'm sorry to have had to share sad news. Darlene
