Thomas Aiken Ditch
Water Users

Re: Thomas Aiken Ditch

Dear Water Users:

The State of Idaho, Department of Water Resources requires a measuring device at all diversions on the Boise River. These measuring sites must be accessible to the Watermaster at all times. Currently the site at the head of the Thomas Aiken Ditch is unmeasurable and must be corrected before water is diverted for the 2009 irrigation season.

If no action is taken to correct the problem, the Watermaster may lock the haedgate until a solution is found. Irrigation deliveries will begin April 1, 2009.

Please arrange for a correction to this problem and contact our office with your proposed actions.

Thank you for your prompt attention to this matter.

Sincerely,

Rex R. Barrie
Watermaster
