Subj: INTERVIEW WITH ROCK CREEK WATERMASTER

PURSUANT TO OUR PHONE CONVERSATION THIS MORNING, I CONTACTED CHUCK HELMAN, WATERMASTER FOR DISTRICT 47-O. (423-5066) CHUCK INDICATED THAT THE 1892 WATER THAT IS INVOLVED IN THE DITCH THAT WASHED OUT YEARS AGO IS GENERALLY NOT VERY GOOD. HE INDICATED THE FOLLOWING:

WATER YEAR	DATE 1892 CUT	DATE 1910 CUT
1993	JULY 15	JUNE 26
1994	JUNE 10	MAY 15
1995	JULY 13	JULY 6

THE POINT BEING THAT IF THE 1892 WAS RE-INSTATED THAT IT WOULD AFFECT JUNIOR RIGHT SOMEWHAT. HE FURTHER COMMENTED THAT IF IT WAS JUST 2 OR 3 INCHES IT PROBABLY WOULDN'T MATTER BUT THE DITCH IN QUESTION HAS SEVERAL RIGHTS THAT COULD POTENTIALLY IF STARTED UP AGAIN WOULD HAVE A LARGER IMPACT ON JUNIOR RIGHTS. HE SAID HE DELIVERS JUNIOR RIGHTS WITH AS LATE OF PRIORITY AS AROUND 1950.
