Dear Sir,

RE: Locking of Diversion

I am writing in order to request that the diversion from Rock Creek to the East Rock Creek Ditch be locked by the Watermaster. The diversion is located at Rock Creek SWSWSW Sec. 01 Township 12S Range 18E Twin Falls County. This summer the water in the ditch was flowing strongly, then mysteriously vanished overnight, while our irrigation system was running. Upon contacting the Watermaster, the river flow was discovered to be unchanged. The "headgate" appeared to have been tampered with, and the Watermaster reset the gate. I believe if the "headgate" at the diversion could be locked, then such pranks could not happen. I would appreciate any feed back you could give me on this matter.

Thank you,

Colleen Lawler (Jaynalene Williams, T.LaMar Willis, CoraLee Summers)
