On Monday I attended the meeting held in our office. There was an active discussion about the problems in the district which centered around inadequacy of measuring devices and the delivery of junior priority rights when senior rights were not being filled.

I passed out copies of 42-701 and the letter that was sent Lee Peterson last year about "Futile Call".

Chuck Helman decided not to run as watermaster. Ken Mulberry offered to serve as interim watermaster until another one was found. Ultimately an advisory board was elected to seek out candidates for watermaster and the meeting was "recessed" until April 7th. The meeting secretary "Sherry Helman" will send out mailed notices to all members in the district informing them of the continued meeting.

After the meeting Sherry called and asked about proxy voting. I told her it was not allowed. She also asked about husband and wife voting and I told her it was probably just one could vote. We also discussed the alternate method of voting using five year average of \$\$\$\$.
