RECEIVED
DEC 06 1994
Department of Water Resources

Dear Tim,

My comments are in response to your letter of June, 1994 requesting measuring devices to be installed prior to the '95 irrigation season on my Little House Cr. ranch.

I did appreciate your visit and the information that you provided for George Sedra, Landall Brewer and I during the meeting of November 22nd. I am more relaxed now because I believe that perhaps prior to our visit I was making a Mountain out of a mole Hill. However, as per our discussion, I consider it to be necessary that your Department assist in an "on the site" study of our ranch. It is very important that we determine what and where measuring devices should be located and in the most economical manner.

Consequently, I request that the "due date" in 1995 be subject to the requirements of our joint efforts during the Spring of '95. your favorable consideration of this request would be appreciated.

Sincerely,
Maurice Guerry, Jr.
