

To the water resource am a member of
45-B Buck creek water

I'm not satisfied with the way the
water is measure in the stem from one
diversion point to another

Robert Manning

I feel like the water being used ~~to~~
below me is not being measure correctly.
~~more~~ I feel like more water is being used
than reported

I have the Matthews Bros water right
we need to measure water at the Calkins &
Payton property.
