Southern Region

RE: TELEPHONE REQUEST FOR WATER RIGHT LISTING

Dear Mr. Tracy:

Norman Young of this office asked that I send you a copy of the recent advertisement concerning a proposed rental of water in the Raft River basin and a compilation of water rights on the Raft River and tributaries in Idaho.

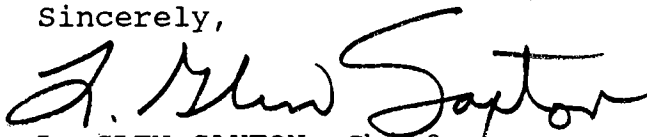

Attached is a copy of the advertisement and two listings of surface water rights. The lists cover the Upper Raft River and tributaries above Bridge and include only rights in Idaho. The lists include everything in Townships 14, 15 and 16 South, Ranges 23 through 25 East. Also included is Townships 15 and 16 South, Ranges 26 and 27 East.

One of the two lists is for all river and tributary rights within the above areas as recorded in the department's original water right data base. The other list (water right numbers preceded with an "A") consists of all river and tributary water right claims as recorded in the Snake River Basin Adjudication (SRBA). Both lists are sorted by water source and then by point of diversion. Some rights are listed more than once as a result of having more than one point of diversion.

For water rights on the Raft River and tributaries which are diverted and used in Utah, I would refer you to Bob Fotheringham in Logan, Utah at phone (801) 752-8755.

If you have questions or need additional information, please feel free to contact the department.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau
