Dave Sunberg
PO Box 1
Malta, ID 83342

Dear Dave:

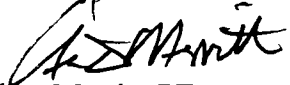

Tim Luke has asked that someone from our office measure the "Idaho Weir" on Tuesday, June 13th. I understand that the Utah Water Resource people will be taking a measurement at the gauge in Utah on that day and Tim wanted to get a comparable measurement on the "Idaho Weir" to help determine loss and possibly assess past measurements.

I understand the Utah people will be in the area around 2:00 pm so we plan to be there also at that time to take a measurement. If you could be there you could take a reading at the same time for your records.

I've tried to contact you by phone but the numbers I have indicate they are disconnected. (208-645-2394 and 435-827-5511) If you have a new number where you can be reached please let our office know. I hope the measurements go as scheduled, otherwise it will be difficult to contact you on short notice to revise a schedule.

If you have questions, please feel free to contact this office.

Sincerely,

Allen Merritt, PE
Southern Region Manager
