Reid Stewart  
3014N 1600E  
North Logan, UT 84341

Re: Water Rights on Clear Creek and Raft River

Dear Mr. Stewart:

Enclosed are lists you requested generated from our database. I had to sort through numerous records and make some assumptions since not all SRBA partial decrees have been cleaned up in our electronic records at this time. I think what I have created in a short time is fairly good but there may be some mistakes so it may not be 100%.

One list is for Clear Creek and the other is for Raft River. Raft River includes all the way to the Snake River. Both are sorted by priority.

After our phone conversation I called Rick Neff and discussed your complaint with him regarding your request for delivery in April. He indicated that since April 16 he had been delivering water as requested down to the Warr property and not much was getting by until around the time of the meeting in Malta (4/26) when the river raised significantly. Since that time he has turned on all who want water including the pumps to Cranney (your place). In my conversation I instructed Mr. Neff that in situations where senior right holders could not use the water (for any reason including not wanting to turn on due to demand charges) that the water was to be distributed to those calling for the water and not try to be running water down the river in anticipation of future calls by senior water users.

If you have questions let me know.

Respectfully,

Allen Merritt, PE  
Southern Region Manager

CC: Tim Luke  
Rick Neff, Watermaster of 43-B
