Bob Zausch
Water District 29-A, Pocatello Creek
8083 W Pocatello Creek Rd
Pocatello, ID 83201

C. L. "BUTCH" OTTER
Governor

DAVID R. TUTHILL, JR.
Director

Dear Mr. Zausch,

Our regional office recently contacted me with questions about the status of Water District 29-A. Specifically, the region indicated that they had received annual meeting minutes from the district but has not yet received any oath of office from you for this year. A review of records from recent years indicates that we have not been receiving oaths from you and subsequently the region has not been issuing a certificate that formally appoints you as watermaster. It appears in fact that we have not appointed you as watermaster for at least the last several years or more. The region has also asked if the district should be submitting annual reports or delivery records. I believe the regional office has sent prior correspondence to you regarding this issue. I have found in our records letters from our regional office to you concerning this issue dated November 1, 2004 and March 9, 2005. Our records show you responded to the March 9, 2005 letter and advised that the district is very small, has no annual budget, and that your position as watermaster is voluntary even though you are elected as watermaster at the annual district meetings. I believe you and I discussed some of these issues this winter when I contacted you regarding your interest in attending a watermaster training workshop in Pocatello. My records show that you did not attend the workshop that the Idaho Department of Water Resources (Department or IDWR) held in Pocatello on April 8, 2009.

The purpose of this letter is to remind you of a few basic requirements for all water districts in Idaho. Idaho law requires that any person who is elected as a water district watermaster must take an oath of office and file such oath with the IDWR prior to appointment as watermaster by the Department. Without the oath and appointment, the elected watermaster is not acting in any official capacity and is not covered by the state group surety bond. You could therefore be held personally liable in the event of any lawsuit or claims for damage resulting from actions you take in your unofficial watermaster capacity. It is not clear from the 2009 meeting minutes whether the users wished to have you appointed for the irrigation season or upon a petition or letter in writing from one or more water users requesting watermaster control or delivery. We have not seen any such petitions and past meeting minutes have not adequately addressed the watermaster's term of service or provided direction as to how the watermaster is to be appointed. In some water districts the watermaster may not be called on to deliver or regulate water so there are cases where it may not be necessary to file an oath with the Department and be formally appointed. It was my impression from speaking with you last winter that you are from year to year engaged in some level of regulation and/or acting as a watermaster on the creek. If you are acting as a watermaster, you need to file the oath and be appointed. An oath of office form has been included for your reference and convenience.

Any water district that elects a watermaster who is subsequently appointed by the Director of the Department must obtain workers compensation. This requirement applies to all water districts in Idaho, regardless of annual budget or whether the watermaster is paid. The water district therefore must at least budget for the expense of obtaining the appropriate level of workers compensation. For

information about obtaining insurance and insurance costs, please contact the Idaho State Insurance Fund. The State Insurance Fund has offices in Boise, Coeur D'Alene, Idaho Falls, Pocatello and Twin Falls. Please note that there are very few exceptions to workers compensation requirements in Idaho. The Department is required to advise all water districts of these requirements.

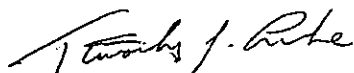

Other basic water district requirements include the filing of several reports pursuant to Title 42, Chapter 6, Idaho Code. At this time, the Department is not particularly concerned about the district submitting annual budget or water user assessment reports given that the district has no budget. However, the Department does expect, at a minimum, that either daily delivery log books or some similar report be submitted that at least shows what water rights received water and when. We realize the district likely has no measuring devices or means to measure most diversions and that many junior priority water right diversions are either very small or may be off for most of the year. While we are not necessarily expecting the district to measure and record diversions or deliveries in detail, we do expect some annual summary regarding the delivery of water rights in the district.

The Department does appreciate the fact that the Water District 29-A holds an annual meeting to elect a watermaster. The fact that the district has remained somewhat active is a reason why the Department recently excluded the district from a proposal to create a new water district for the lower Portneuf River area and tributaries, and consolidate the new district with several existing but inactive water districts in the area. However, if Water District 29-A cannot meet basic requirements in the long run, the Department may consider consolidating the district within a larger area water district, or consider designating Water District 29-A as a sub-district within a larger area water district.

Finally, we wish to remind you, as watermaster, that you must administer water rights in the district in accordance with the partial decrees issued by the Snake River Basin Adjudication (SRBA) District Court. A current list of SRBA decreed rights, and other pertinent rights, have been included with this letter for your reference. This is the list of rights you should be using as watermaster if you are not doing so already. Any old water right decrees or compilation of rights from decrees preceding the SRBA should be discarded.

I encourage you to contact me or other Department staff to discuss basic water district requirements and related reporting improvements. You may contact me directly at (208) 287-4959, or Ernie Carlsen at our Idaho Falls regional office at (208)-525-7161, to discuss these issues further.

Sincerely,

Tim Luke

Enclosure: Current Water Rights List for Water District No. 29-A
Watermaster Oath of Office
