Subject: Water District 43-C Map

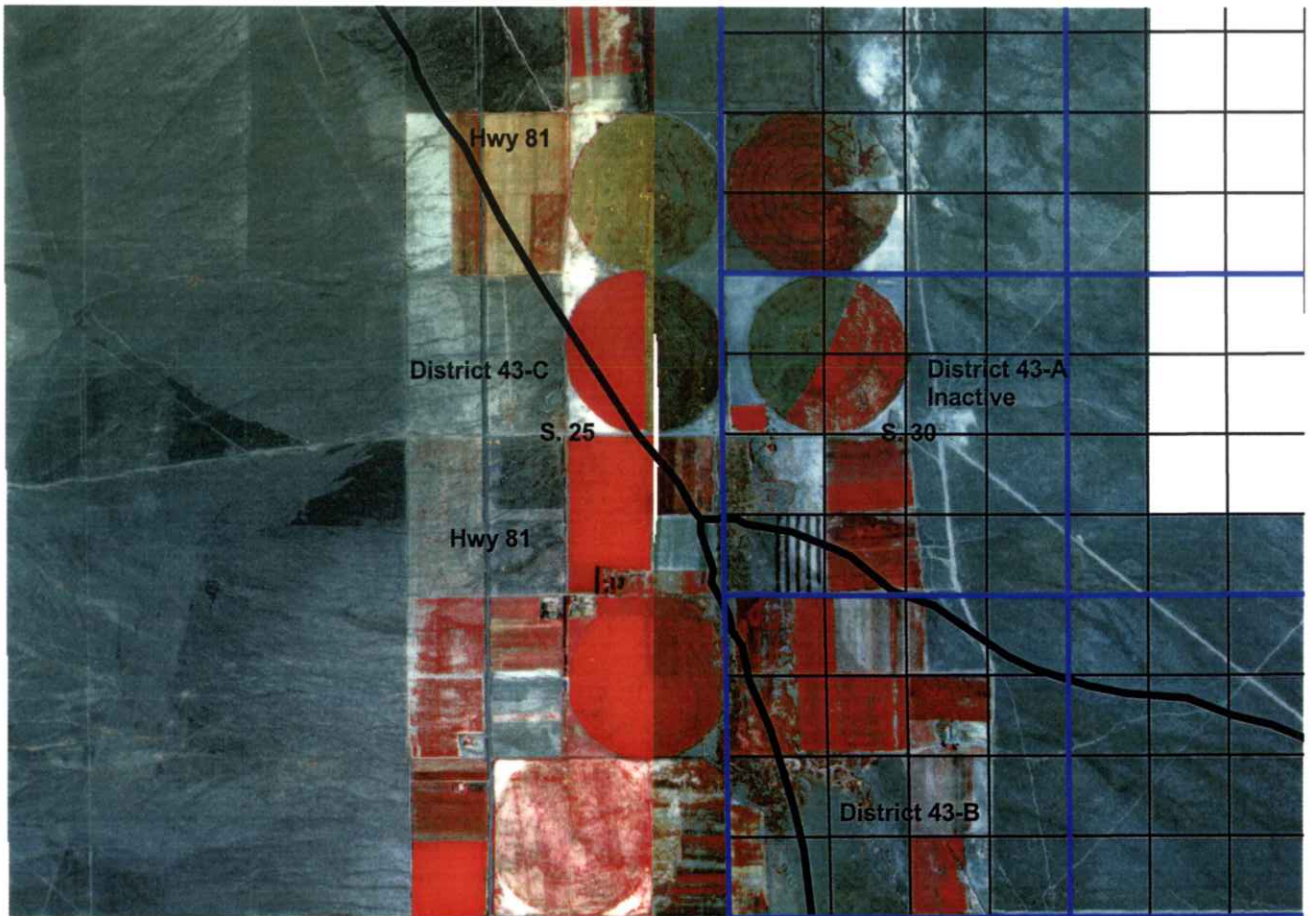

Mr. Lewis - Here is the map you requested. My conclusion is that the 43-C watermaster has no authority to deliver water north of the point where Cassia Creek naturally runs into Raft River in the NE/SE/SE Sec. 25 T. 12S R. 26E. From this point, the eastern boundary of your district runs northwesterly AWAY from Raft River. From the above point, Raft River is in District 43-A, which has

WD 43-C Map.doc

been inactive for many years due to a lack of sufficient water in that area to support a district.
