Re: In the Matter of the proposed Creation of a Water District in the Mud Lake Area  
Within the Eastern Snake River Aquifer in Administrative Basins 31 and 32

Dear Director:

I am a shareholder in the Reno Ditch Company which is a member of Water District 32 for the purposes of administering surface water. We utilize surface water from Birch Creek. I do not believe that our surface water rights from Birch Creek need to be included in this new proposed water district as currently we are already in a water district.

Very truly yours,

Ted S. Sorenson
