Dear Bob,

I am hereby submitting my personal mitigation plan for the call made by the "Jensens", of which I am no relative or have any financial interest in their operations. I have also included a map giving the Lost River Electric Co-op's pump numbers and locations of the wells which I operate and the mitigation well which "Jensens" propose to use.

My farm is currently being irrigated by waters from Co-op Pump #s 40, 318, 478 and 517. Pump # 40 has just been place into service to augment the flow from pump #478 to operate one wheel line for me and a short wheel line for Tom Perkes, who also has a water right in pump # 478. I am unable to utilize the water from pump #40 without the assistance of Mr. Perkes ditch pump.

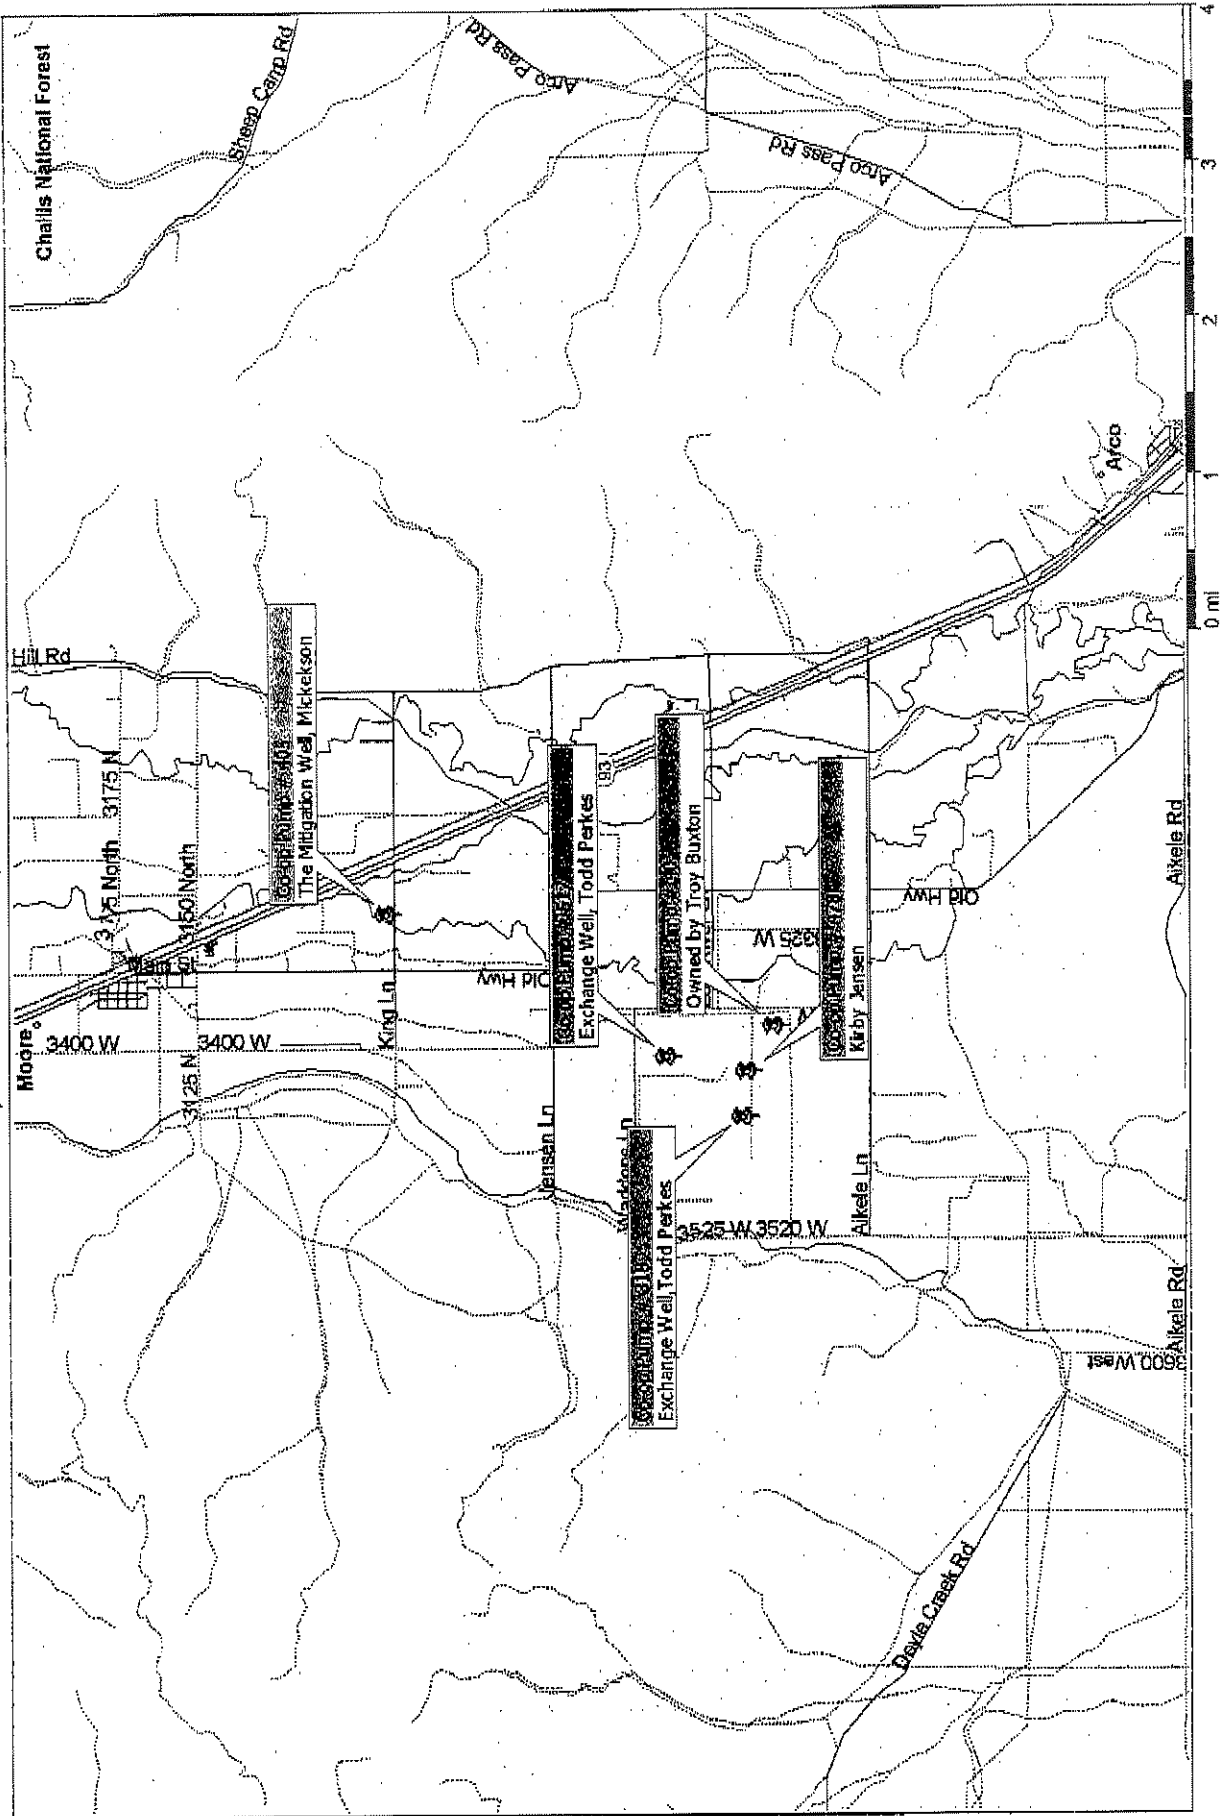

Today I have spoken to Jay Jensen, Vaughn Jensen, and Jack Jensen and assured them that I would pay whatever portion of the operating costs of the mitigation well, based on their determination, that they feel is my share. This is my mitigation plan, no strings attached.

Wishing you all the best,

Respectfully,

Kirby
