Department of Water Resources
Southern Region

7 NOVEMBER 1996

Concerning water delivered in Water District 41 in 1996

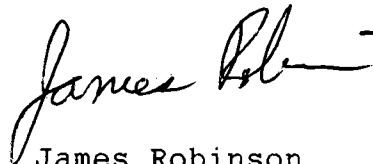

Water was plentiful in almost all areas of the district this year except for the landing creek drainage. Because of this all ditches as is the custom here ran at their six inch measurement in the measuring box plus all the extra they could handle.

The exception to this was the Udys on the Hartley Ditch and the Landing Ditch was also short part of the season.

Since all ditches except these were over their measurement, and I never came up short at the lowest measuring device, I never had to cut any ditches down.

The measurements are based on their arbitrated amount from the 15th of May through the 15th of Sept.

Since at least the mid sixties which I remember when there has been extra water in this district it has been divided to all the ditches so as to use the water in the valley. I have been told that this has been the practice since the turn of the 20th century.

James Robinson
Watermaster District 41
