JOE "	"
Lois Brewer	IDWR
John Homan	IDWR
Phil Rassier	IDWR
Bill SWYDER	Flora Co.
Daniel See	Flora Co.

SL

8/23/94

Ed Squires Presentation to
W.D. & Aquifer Test

"Opportunistic tests" do as can @ conditions w/o
being able to set conditions to your choosing

Tertelij Motorgel Club (TMC) well rehab. to produce
good flow now.

Bottom line

- Appears fault btw Tertelij Windrock (TW) well & these up gradient.
- no observed well interference across the fault.
- Immediate well interference down gradient from fault.
- So WS well is to SW as go down the gully: all intersected.

See his } map - well locations
 } graphs (2) - well water levels

" Ken Neely's 8/94 data also

KEN - Ed's data does not allow - at 1st glance -
predictability of recovery of wells.

discuss
later in DA)
w/ Dave

DRT - How can we allow any jw. wells to pump
if SR w/o H₂O & calling for water?
