Subj: 63-S MEETING @ DATA

I talked to Dave and he asked if we could proceed with the inhouse data review without him (he's just too busy but has confidence in what we are doing). So let's plan to meet on Friday, May 5 at 1:00 at your office, Ken, if that sounds okay. Whatever conclusions etc. result from this will be routed through Dave so we have good backing for any water delivery decisions.
