IDWR Staff questions/comments

... been a recorder in - Med

Stone,

I would not be overly receptive to a prolonged period past 10 days to keep the record open.

The reason why is that

Flora as well as Quail Hollow had notice of this hearing and had the opportunity here <sup>to say</sup> to put on evidence as well ~~as~~ expert testimony to oppose the petition.

Perhaps a few days past 10 days is okay but a long time could be prejudicial to the Petitioner.

3) Is the evidence in The Pool well or a fault?

Request all aquifer test data in electronic format readable ~~by~~ in Lotus 123 or other standard format.

Can we reconcile software versions

? Same side Basin but  $\Delta$  N. me?
